

# PORTAPROMPT

## “FUSION” / “FLIPPING FUSION”

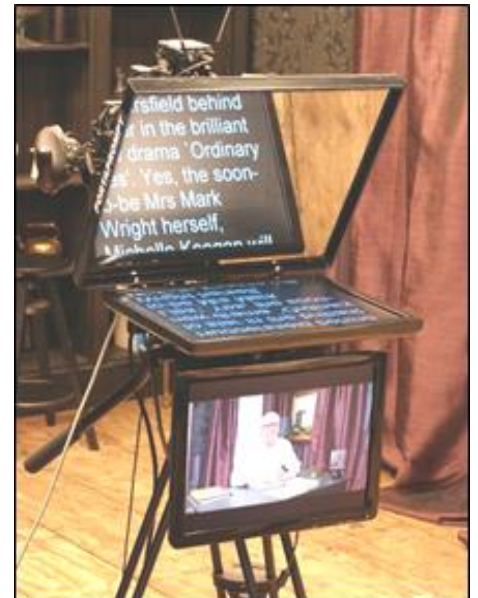

Designed for professionals who do not need the extended and networking broadcast functions of the Quasar / Premium ranges and find Tablet / Micro Prompters too limiting for longer “Reading Distances” – (see Reading Matrix below). **Standard Fusion’s** are mid-budget 4 x 3 aspect ratio IT style monitors with plastic frames and cannot mirror (done in WinDigi software). **Flipping Fusions** have metal frames and can mirror in monitor. Both ranges ship with our PC based prompting software WinDigi Lite which can be upgraded to Lite Plus or Full. Available in 15”, 17”, 19” and 24” (16 x 9 Flipping Fusion only) they use a 19mm bars / clamps rigging system which is very flexible and suitable for all types of camera including PTZ cameras.

Applications:-

- **Traditional ENG / Studio “on-camera“ and PTZ through lens rigging with Talent Monitor option**
- **24” Flipping Fusion is excellent for large screen “PowerPoint Prompting” (16 X 9 aspect ratio)**
- **Intertron (Active and Passive)**
- **Conference Poles (CG and MCG) monitors**

### KEY FEATURES

- 400 to 1200 NIT brightness colour monitors suitable for Location, Studio & Conference systems usage - Fusion have plastic frames and Flipping Fusion aluminium frames
- Highly flexible quick and easy rigging / clamps system (using 19mm bars) allowing multiple types / styles of camera to be rigged including PTZ cameras
- Lightweight universal folding hood is ideal for robotic PTZ camera rigs - can be rigged “top down / bottom up”. Large “French Hood” available at no extra cost
- Automatic PAL/NTSC composite video signal detection
- VGA / HDMI input for high resolution computer graphics
- SDI as standard on the Flipping Fusion models
- On standard Fusion models mirroring takes place in software rather than in the prompting monitor but Flipping Fusion range does mirror in monitor
- WinDigi Lite software included in bundle with options to upgrade to Lite Plus and Full
- Variety of optional wired and wireless hand and foot controllers are available
- Under slung Talent Monitor, Time Code clock & separate Tally lamp options available
- Monitors do not use fans making them silent in use.
- Slim line for improved on-camera tilting
- LED Backlights for lower power consumption

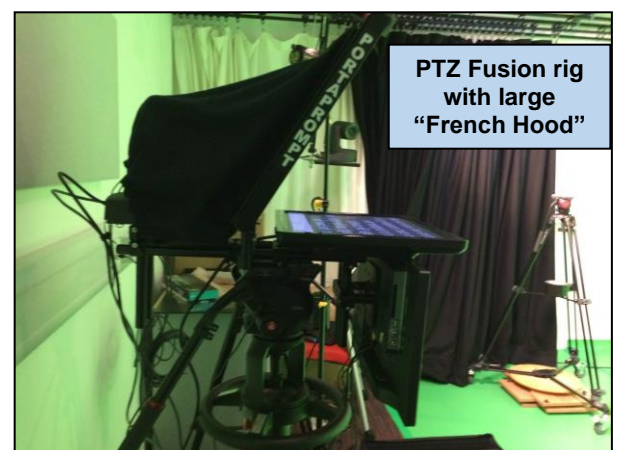

### FUSION DETAILS AND MODEL NUMBERS

- **900-015 - 15” Fusion Kit (requires software to flip / mirror)**
- **900-017 - 17” Fusion Kit (requires software to flip / mirror)**
- **900-019 - 19” Fusion Kit (requires software to flip / mirror)**
- **900-515 - 15” “Flipping” Fusion Kit (monitor will flip image)**
- **900-517 - 17” “Flipping” Fusion Kit (monitor will flip image)**
- **900-519 - 19” “Flipping” Fusion Kit (monitor will flip image)**
- **900-524 - 24” “Flipping” Fusion Kit (monitor will flip image)**

Each kit ships with:-

- 1 x Monitor with 15”/19”/ 24” lightweight reflector/hood
- 5 x rigging mount clamps
- 2 sets each of 200mm, 300mm and 450mm 19mm bars
- 1 x Camera, Monitor and Tripod plates
- 2 x Hood Bars, Rods and one safety collar
- 1 x WinDigi Lite Software dongle / CD
- 10 metre HDMI cable or 25m BNC
