

PORTAPROMPT Short Form Price List

"On Camera TV Prompting" (ENG and Studio Rigs)

March 2021

Basics of building an "On Camera" prompting kit :-

- 1) You will need a prompting source (PC or tablet with prompting software) and a controller / scroller
- 2) You need to get VGA, HDMI, Composite Video, SDI or IP feeds from your PC to the prompt monitors (may require adapters)
- 3) You need the Prompting Monitors and Rigging

PRODUCT CODE	PRODUCT DESCRIPTION	LIST PRICE EACH
--------------	---------------------	-----------------

1) PC Based Prompting Software (100 series) and Control options (200 series)

USB connection

100-013	WinDigi Lite, software and dongle, uses the keyboard or scroll wheel on a mouse to control the speed of scroll. Light weight version of Windigi software. Can be used with mouse controller like Contour Shuttle Express and Bluetooth pen / mouse for wireless operation	£325.00
